so sorry! I hope you find another puppy.

I do not know what happened to that proposal...Ron has not heard anything more. I guess we'll see...in the meantime, I have 3 CICs who just deployed up to Dimock to help with doing home well surveys (related to Cabot's drilling). So we are very involved at the moment in Marcellus shale.

Helen, I had to send Ridgeley back to the breeder, it just didnt work out for him and I and the little poodles. I have to rethink my options.

Whatever happened to the idea that there would be communicators on 16 for mountain top, marcellus, and chesapeake bay? did that fold into this 16th floor job?
